June 2022

Letter from the Board

Thank you to everyone who came out to the pool for the WOC Meet and Greet! We enjoyed meeting everyone and discussing the logistics and vision for the pool moving forward.

Be looking for more information in the coming months as we continuously work towards creating a plan to put in front of the neighborhood.

The website has all the minutes from 2022 uploaded for anyone to review. We are working toward putting all the minutes from the last 6 years up by the end of the month for everyone to review the historical.

We look forward to seeing you at the next WOC meeting on Tuesday, June 21 at 6pm at the Westchester Pool Pavilion.

Bloom Where You are Planted

Yard of the Month and Gardening Tips

This is beginning to be the best time to buy crape myrtles, since it is better to buy them in full bloom to be sure you're getting the colors you want. Be sure to take note of their mature sizes and how well they will fit in the area you want them to fill as they grow to their natural size. Plan to follow the recommendation of gardening professionals by gently shaping and removing unwanted trunks each year rather than an unnecessary early spring "topping" that delays their first blooms.

While adequately watering plants during our hot summer months, avoid over watering plants which prefer dryish soil such as cacti and other succulents, bougainvilleas, geraniums, ixoras, kalanchoes, moonflowers, and morning glories.

Some of the most heat tolerant annuals for color for sunny areas include moss rose, penta, angelonia,

hybrid purslane, cleome, Dahlberg daisy, and gomphrenas for flowers and purple fountaingrass, copper plant, ornamental sweet potatoe, amaranthus, alternantheras, and firebush for foliage. For shady areas they include wax and Dragon Wing begonia and flowering tobacco for flowers and caladiums and coleus for foliage.

For any plants showing iron-deficiency (plants with yellowed leaves but dark green veins which are most prominent on the newest growth at the ends of the branches) apply a combination iron/soil acidifier product. Keep iron products off concrete and other surfaces since the iron content can cause stains.

If pruning trees, try to avoid trimming oaks until after mid-July to minimize the chance of spreading oak wilt fungus.

Matthew and Jennifer Harbison 14715 River Forest Dr

In Our Schools

Nottingham Elementary

Help the NHE Capital Campaign meet its \$500k fundraising goal before July 1! The school is raising funds as part of the school's rebuild to fund things like replacing playground equipment outside of the standard district package and other preferred upgrades.

Please visit <https://nottinghampta.membershiptoolkit.com/new-build> to learn more about the initiative and to donate today!

Spring Branch ISD

Enrollment is now open for the 2022-2023 school year. Go to Springbranchisd.com to register.

ADAM'S TREE SERVICE
